

# Celtic

## **The Celtic Group**

Celtic Linen Limited is a family owned group of companies based in Wexford in southern Ireland.

The Group provides hygiene services for industry, healthcare and hospitals, incorporating linen and garment rental and direct sale of hygiene products and textiles.

Celtic employs in excess of 500 people and operates from 6 sites around Ireland. Its customer base covers an area from the border with Northern Ireland southward.

## **Users of NRG within the company**

In total, Celtic Linen have five users of the NRG Report Writer to allow design of reports and the running of reports on a scheduled and ad hoc basis.

## **Overview of use of NRG**

The main reporting requirement for which the NRG Report Writer is used is for monthly reports on sales figures, delivery figures, and supplier monthly turnover figures. These are reports, which are in a different and more detailed layout than the standard reports available on Celtic's accounting software package. These reports are vital for monthly accounts and to assist in future planning of the business. The NRG Report Writer enables them to produce reports in line with changes as they occur in the company.

NRG reports are also used as an audit on the data on their accounting system, to ensure correct data input in certain fields. These are fields which if incorrectly input would cause incorrect charging on accounts and incorrect allocation of sales figures. Hence, the importance of having checks on the database.
