Established in 1804 Oldrid & Co Ltd. is Lincolnshire's premier independent retailer. From Five stores in Boston and Grantham the company sells "Everything for you, your home, and your garden".

NRG is used extensively to produce reports using data from the Company's Furniture retailing businesses (Downtown). Data is collected from the company's bespoke sales system which resides on a UNIX server.

Admin Users create reports which are stored in a central dictionary allowing all NRG users to access the same reports. NRG allows the reports initially written in the Windows NRG admin screens to be exported to the UNIX server as runtimes so they can triggered from within Oldrids own sales system.

Simon Lunn, IT Manager for Oldrids says:

"Ad-hoc Reports are often requested at short notice. The NRG Report Writer screen layout is particularly useful as it is easy to ensure a rushed report is still clear. NRG's 'Sort By..' and 'Group by...' features are powerful options allowing Sales data to be extracted with a minimum of effort".

"The facility to output directly into Microsoft Excel is widely used allowing reports to be produced and distributed in an application familiar to many staff".
